

Pré des Pêcheurs, Antibes, France, winner of the EPA 2015 special jury prize

PROFILE

Q-Park is an international parking services provider with owned and leased investment property as well as property operated under management contracts. Q-Park focusses on value development by providing high-quality functionality for built parking facilities and off-street parking at strategic locations.

Q-Park's activities focus on providing services related to parking at specific locations: in or near multifunctional inner-city areas, at public transport interchanges and at hospitals.

Q-Park does business with a long-term perspective and from a solid financial basis. By applying innovative technology and by working together with public and private parties, Q-Park offers sustainable, efficient, profitable and customer-friendly parking solutions.

The Integrated Report gives insight into our value creation including its impact.

You will find more about who we are, our vision and mission, shareholders, market position, developments and plans for the future on our website www.q-park.com, under 'Who we are'.
